The **MuslimsVote.ca** Campaign @ Eid Festivals Across Canada

Dear CMPAC Community - Assalam Alaikum & Peace be Upon You,

CMPAC prays the entire Muslim community in Canada had a wonderful Eid concluding a blessed and inshaa Allah accepted month of Ramadan.

The **MuslimsVote.ca** Campaign is growing to be a powerful movement across Canada. In mosques, at community centres, on campuses and in our group chats — Muslims are coming together like never before. We are unified. We are mobilized for Gaza, and we will be voting on Gaza.

MuslimsVote.ca has been on the ground in over 32 mosques and Eid locations nationwide — from Friday prayers to Eid gatherings in 10 major cities from Montreal to Vancouver. Our message is resonating across the country. Thousands are taking our posters home, sharing our call to action, and joining a movement that's growing by the day.

This past weekend we reached more than 100,000 people across Canada.

We are mobilized in **35 key ridings and endorsing over 50 candidates**. We're meeting with MPs in every riding, making our voices heard.

We're growing faster than we imagined — and the momentum is undeniable. It's unified, it's principled, and it's sending a clear message to every political candidate: the Canadian Muslim vote matters, and we're watching.

This election we are not voting on Principle. We are not voting out of fear. We are voting for Gaza. For our families here and abroad. For justice, dignity, and a future where our voices shape this country's policies — not just respond to them.

We are no longer waiting for political parties to recognize our power. We're showing them. We are no longer accepting Islamophobia as a structure feature of the system. We're calling it out. We are no longer divided. We are showing up — as one block.

This is our moment. And it starts with you.

Sign up today at **MuslimsVote** to show your support and stand with Muslims across Canada voting for Gaza at the ballot box.
Let's move together, vote together, and win together.

GAZA IS NOT JUST A FOREIGN POLICY ISSUE

Gaza is deeply connected to the erosion of civil liberties, the rise of anti-Palestinian racism, and Islamophobia in Canada.

Students, activists, and community members who speak out for Gaza are being silenced, harassed, and targeted by smear campaigns.

Universities, workplaces, and public institutions are penalizing those who express solidarity with Palestinians.
